EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Bradley Lytle on 11 October 2006. The following changes were agreed upon:

In the drawings, figure 12 will be labeled as Prior Art and the plug in figure 10 will be labeled with numeral 25.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

Claim 1: While prior art could be found in which headphones utilize a spring to wind and retract a plug-attached cord (Liao, US Patent 6937725 and Hashimoto et al. US Patent 6480611) and prior art could be found in which the housing of each headphone has ribs capable of joining each other (Kirk III et al. PGPUB 2003/0169896), no prior art could be found in which the release means to release the control over the retracting and winding of the plug-attached cord by the locking means, when the housing are joined together by means of their ribs. For that reason claim 1 is allowable.

Claim 2 properly depends on claim 1 therefore it is allowable.

Claim 3 properly depends on claim 2 therefore it is allowable.

Claim 4 properly depends on claim 1 therefore it is allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
